

La Trobe University, Bendigo

ACS supplied TROX active chilled beams type DID632 to two 5-star buildings at the La Trobe University Education Precinct in Bendigo; the Clinical Teaching building and Health Sciences building.

This brand new complex provides clinical teaching to students using state-of-the-art equipment and multi-media facilities in specific, purpose built spaces and simulation laboratories. The buildings are designed to offer excellent levels of comfort and flexibility and have been awarded 5 Star Green Star - Education Design v1.

ACS worked closely with the engineers at Waterman AHW to ensure that the chilled beam design met the exacting requirements of these high-tech buildings, completed in 2012.

Location **Victoria, Australia**

Product **Active Chilled Beams**

Scale **299 Beams**

Client **Burns AC**
